

PAO 90-0160

30 April 1990

JUDGE -

The WORLD NEWS MONITOR, the nightly TV news program of the CHRISTIAN SCIENCE MONITOR, would like to do a taped interview with you on Intelligence in the 90s.

The invitation was extended by Angus Yates of the Washington Bureau who said they would like to tape you for about 15 minutes or less at a location convenient to you--Headquarters or their offices on M Steet in Washington. They would like to tape within the next two weeks. Paul Miller, a senior MONITOR correspondent, will do the interview.

The MONITOR would give you three or four key points to address and turn the mike over to you. In a nutshell, what will be the future role of Intelligence in light of a bankrupt Communist ideology and a greatly diminished Soviet threat? What reallocation of the resources of the vast intelligence gathering/analyzing apparatus do you foresee?

We recommend you consider doing the MONITOR interview. While it doesn't reach the viewing audience of the network shows, a minimum investment of your time would give you an opportunity to reach a thoughtful segment of the viewing public.
